Jas Abay

A person who creates and contributes

Mind · Will · Heart in equal measure

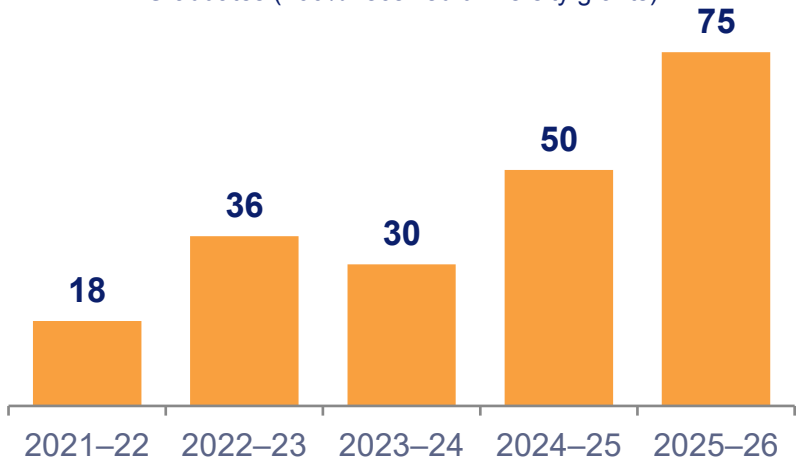

Mission and results

We unite mind, will and heart so rural children enter university on grants and grow into people who create and contribute

Applicants for programme places

Graduates (100% received university grants)

* 2027: target. Applicant numbers grew 5.3-fold from 2023 to 2026.

Jas Abay today

144 students study at the school

44 places a year in the grant programme

Programme budget: ≈ ₸183 million a year (44 × ₸4,161,000)

800 m², 2 floors, 9 classrooms. The school received its state licence in 2023.

Challenges

1. **Talented young people leave rural areas; unequal access to education**

2. **Outdated schools, limited career guidance and too few boarding facilities**

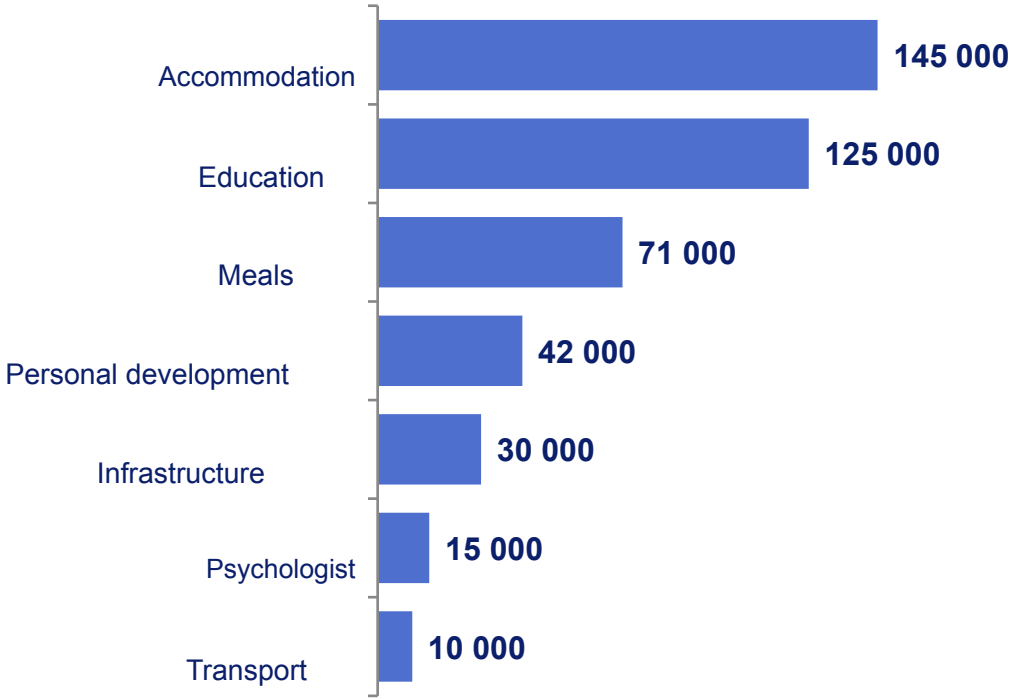

Our solution

1. **Grants for rural children covering education, accommodation and meals**
2. **The Aqyl – Qairat – Jürek model: mind, will and heart**
3. **Education, mentoring and science together**
